

**COST OF LIVING INDEX (Q3 2019 thru Q3 2022)**

**MSA COMPARISON (Q3 2021 vs. Q3 2022)**

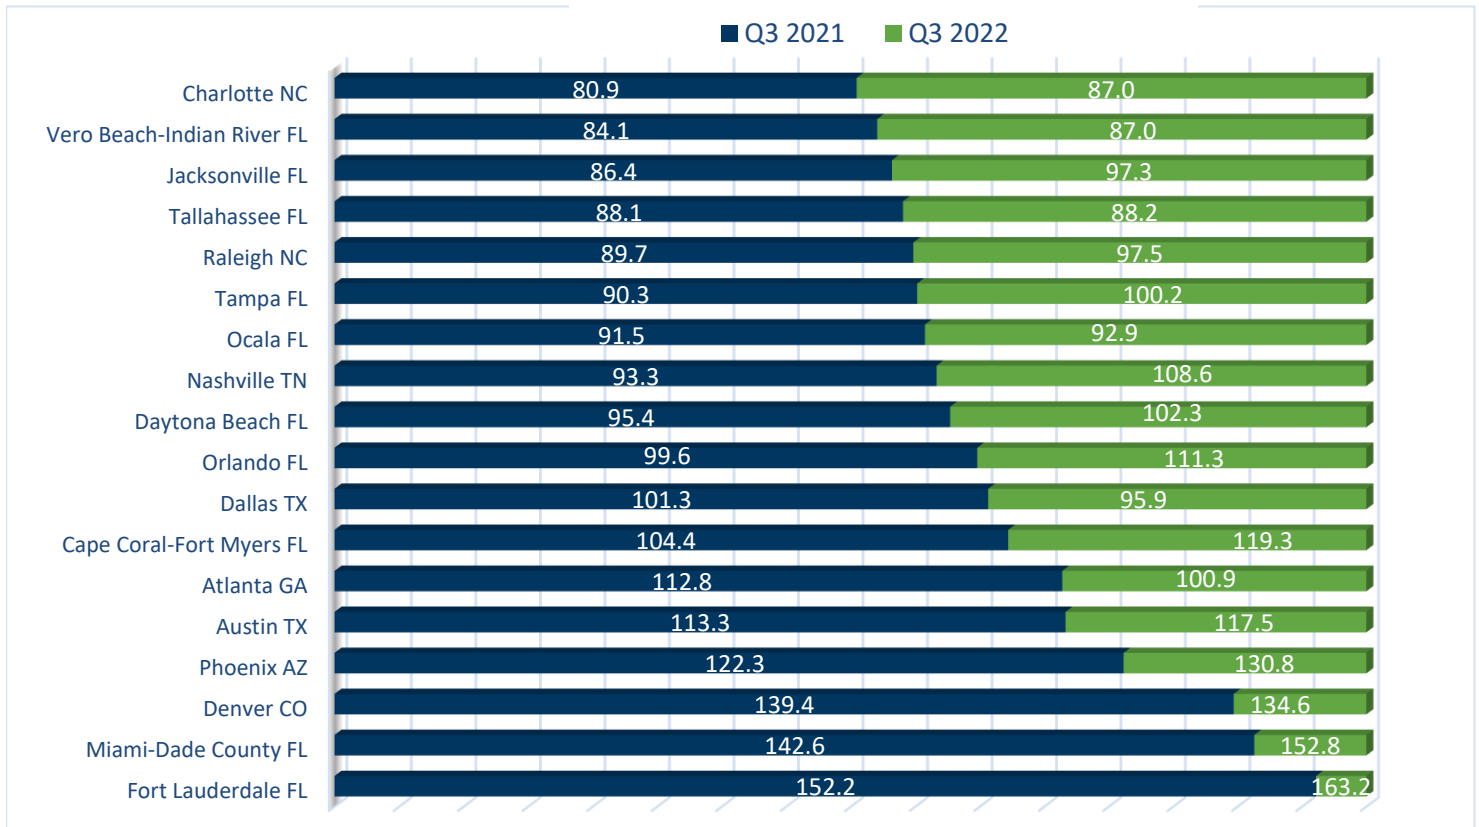

The *Cost of Living Index (COLI)* measures relative price levels for consumer goods and services in participating areas. The average for all participating places, both metropolitan and nonmetropolitan, equals 100, and each participant's index is read as a percentage of the average for all places. Due to quarterly changes in participants and price inputs, the index does not provide an accurate measure of changes over time. The index does not measure inflation.

\*Note: Due to COVID-19 data collection for the cost of living was not collected in Q2 2020.

National Average Index = 100

## COMPETITIVE MARKET HOUSING INDEX

2022 Q2 Florida Areas Index	100% Composite Index	17.26% Grocery Items	30.90% Housing	10.21% Utilities	7.54% Transportation	4.42% Health Care	29.67% Misc. Goods & Services
