State-to-State In-Migration Flow

Source: 2021-2022 1-Year American Community Survey (ACS) Migration Flow

Where Did People Move Between 2021 & 2022?

Where did people move to?

- The number of people who moved between states rose from nearly 7.9 million people in 2021 to approximately 8.2 million people in 2022.
- The state of Florida ranked #1 with the most in-migration of nearly 739,000 new residents followed by Texas (668,300) and California (475,800).
- Florida's largest gains came from these states:
  - New York (91,200)
  - California (50,700)
  - New Jersey (47,000)
  - Georgia (39,990)
  - Texas (38,200)
  - Pennsylvania (35,400)
  - Illinois (35,300)
- While California had the third highest in-migration, it also saw the most residents (over 800,000) relocating to other states such as Texas (102,400), Arizona (74,150) and Florida (50,700).
- Since 2012 Florida has experienced gains of over 500,000 new residents each year.
